PLAYING PROVIDES YOU WITH A RELAXED WAITING ROOM

With an IKC play corner, you create a place where children can enjoy themselves. This will benefit the atmosphere in your waiting room, because you will make the children feel as welcome as their parents. Additionally, offering a distraction can help to relax children, so that they are less stressed going into their appointment.

THE ADVANTAGES OF A KIDS' CORNER

Research has shown that, when the waiting room offers positive distraction, patients will be better prepared for their consultation. A kids' play corner increases the relaxed atmosphere with 70% because the play corner creates this positive distraction for the children. An additional advantage is that children, who are patients, can play and relax before their consultation, therefore they are less likely to be stressed going into the doctor's appointment.

“There is a relaxed atmosphere, parents enjoy a cup of coffee while the children are playing. This makes waiting more pleasant.”
